Republican State Convention.

A REPUBLICAN STATE CONVENTION will be held at Madison, on Wednesday, the 2d of September next, at 12 M., for the purpose of nominating candidates for State officers to be elected in November.

Each Assembly District will be entitled to two delegates in said Convention.

L. P. HARVEY,
N. W. DEAN,
K. J. FLEISCHER,
J. C. COVEY,
BYRON PAINE,
THOS. REYNOLDS,
CHAS. ROESS,
L. H. DARL,
EDWARD ELDER,
Republican State Central Committee.

Madison, July 6, 1857

Republican Assembly District Meetings.

The Republicans of the following districts in Milwaukee county, are invited to meet at the time and places following, to appoint two delegates in each district to represent them in the Republican State Convention to be held at Madison on the 2d day of September next:

1st and 7th wards at the Court House on Friday, Aug 28th, at 8 P. M.

2d Ward at the Mansion House same time.

24 " " Louis House "

4th " " Menomonee Hotel same time.

5th and 8th at the Niagara House "

6th and 9th Wards at Baumb's Saloon same time.

Milwaukee and Greenfield at the Honey Creek School House, same date, 8 P. M.

Lake, Oak Creek and Franklin, at Oak Creek to date, 2 P. M.

The above Districts are each earnestly requested to appoint a permanent Committee for all future action, and report the names of the same, together with the proceedings of each Convention at this office without delay.

By order of the Ex-Committee of the Young Men's Fremont Club.

P. S.—Any prior call has been issued outside of the city, even this is not to interfere with the same; otherwise to remain in full force.

The News.

The telegraph brings much interesting news. Disastrous failures are the order of the day in New York. Besides the Life and Trust Company whose failure is even worse than reported yesterday, John Thompson, the famous broker, who has made and broken banks not a few, has gone under, with very heavy liabilities, carrying with him others.

Change of Time for the Republican Primary Meetings.

At the urgent request of many of our German Republican friends, who desire to attend the primary meetings to choose delegates to the State Convention, but who, being members of the Turnverein, or interested in the Reception which is to be given to their friends from abroad on Saturday evening, we have taken the liberty of changing the time for the Republican Primary District meetings to *Friday* evening, at the same time and place as mentioned in the calls.

DEMOCRATIC STATE CONVENTION.—THE DELEGATES ELECT.—The election of Delegates to the Democratic State Convention, from this City and County, has resulted disastrously to the Barstow wing of the party. Dr. HEINSOHMANN, who represents the opposite interest, has carried four of the City and two of the County Assembly Districts, while two of the City and one of the County Districts have declared for Mayor Cross. The Senatorial Delegates, we believe, are equally divided. This result is alike unexpected and unpalatable to the Barstow men, who have heretofore held the upper hand in this County, but are now signally beaten. The result is thought to show that the majority of the party in Milwaukee do not approve of the course pursued by the Federal administration in its distribution of offices and selection of advisers hereabouts.

REPUBLICAN DELEGATES.—The Republicans of the Mayville and Horicon District, in Dodge County, have chosen HORACE ALLEN and WM. H. BUTTERFIELD, as their Delegates to the Republican State Convention.

BREAK IN THE SAULT CANAL.—We learn from passengers who arrived here yesterday from Lake Superior, that a serious break occurred in the Canal at the Sault Ste. Marie, on Thursday last. Our informant, though he saw the break, could not ascertain how serious the damage was, or how much time would be needed to repair it.—At the time of the accident, the *Lady Elgin* and *Superior City* were the only steamers above the Canal.

MADISON PATRIOT.—Mr. John T. Martin, of Madison, has become a partner with Carpenter in publishing the Patriot. Mr. Martin was formerly President of the Bank of the Capitol.

Governor Robinson on Trial.

A correspondent of the St. Louis *Republican* gives some details of the trial of Governor Robinson, of Kansas, before Judge Cato, for usurping authority. The trial closed on the 20th.—The writer says:

Judge Cato's charge to the jury is said to be a remarkable document. He told them that if they found that Robinson had usurped the office of governor of the State of Kansas to find him guilty.

The jury retired and were in session all night. It is now 9 o'clock on Thursday morning.

A report from Lecompton states that the jury stand six for conviction and six for acquittal.

The penalty for the offense is imprisonment for any time under a year and a fine of any sum under five hundred dollars.

Gov. Robinson, if convicted, will refuse to pay.

PRE-EMPTORS, ATTENTION!—A gentleman of this village, who has just returned from La Crosse, informs us that the officers of the U. S. Land Office at that place have received an official dispatch from "head quarters," notifying them not to receive applications from pre-emptors in the Chippewa Land District. It will therefore be of no avail for persons residing in this District to make application for pre-emption papers at La Crosse.

The Land office in this district will doubtless be opened soon.—*Eau Claire Times.*

THE HARVEST—NEW WHEAT.—The weather is good for harvesters. Nearly all the grain has been cut, but not one half of it has been stacked. The farmers are now stacking rapidly, and we hope the greater part of the wheat crop will be secured during the week. We noticed several loads of new wheat in market yesterday. There will probably be more shrunken wheat than was expected.—*Janesville Gazette, Aug 28.*

The late Storm.

We continue to receive accounts of the damage done by the late storm, north and northwest of us; and give place to two letters describing the tornado in Columbia county. We learn that the hail storm was so severe on Grand Prairie, this side of Stevens Point, as to have destroyed a great portion of the standing crops, cutting down the corn, and even the grass:

Correspondence of the Sentinel.

The late Tornado in Columbia County.

FALL RIVER, Aug. 22, 1857.

MESSRS. EDITORS:—Having witnessed one of the most singular and terrible phenomenons ever heard of in this western world, I will attempt to give you a short description of the same; hoping you will pardon anything which may seem to you exageration, when I assure you I will keep as far within the bounds as the awful scene will permit me to.

Yesterday about 4 P. M., it commenced raining at this place and surrounding country, very hard; after having prepared itself for some length of time, having rained in torrents some 15 minutes, it suddenly stopped raining and commenced hailing, such hail as only those that saw, can describe. At this village the hail were only about the size of hurtlenuts measuring about 2 or 3 inches long, and 2 in circumference; but some of our honest and reliable farmers, residing northeast of here about 2½ or 3 miles, tell us of hen, or rather "icebergs" falling at their places the size of a pint cup, or as large as a man's hat, cutting and destroying crops of corn, pumpkin-squashes, and in fact sauce of all descriptions. While it was hailing so severely, the people of the place discovered something in the southwest, resembling what is described by sailors and travelers on the water, as a waterspout, appearing and as has since been ascertained to be about 8 miles distant from here, but approaching us with considerable rapidity, almost in a direct line. It is hard to give you an exact idea of this "animal," but I will attempt to describe it as near as I can in plain language. At first sight it appeared like an immense sack swung down from the clouds into the atmosphere, but not touching the earth; but after proceeding this way a few moments, it did reach the ground, and formed a base resembling an inverted funnel, this base being composed of rails, timbers of houses, household furniture grain, and every thing which came in its reach.

The first damage we have yet heard of in doing was tearing down and uprooting an oak forest, or rather openings; it next entered a farmer's field of 28 acres of wheat, destroyed about 14 acres for him, and quite a number for a neighbor residing this side of him.

Then sweeping along about 160 rods, it came in contact with a Mr. H. M. Morey's house, and destroyed it in an instant, killing one man, a Mr. Chas. Clark, badly mangling Mrs. Morey, although not considered fatally, and slightly bruising some others of the family. When it was discovered by the inmates of Mr. Morey's house, they all rushed to the window on the side of the house, towards which the tornado was coming, excepting a Mr. Hoyt, who jumped out of the door just as the house was struck, and got out of the current unhujured. The rest were whirled in all directions, with the furniture and pieces of the building. Mr. Clark was found about 10 rods from the house dead, having apparently been struck on the back of his head by some timber, or stone, which fractured, or rather crushed his skull.

The tornado then rushed on in its destructive course, taking with it, rails, timbers, sod and everything else in fact which came in its way, till it reached a Mr. Palm's house, which it took every particle of, from the cellar foundation, and carried it off his farm, distributing it all over the country where it passed. Mr. Palms saw it coming, and got his family all down cellar just in time to save their lives. He being a little behind, lost his hat, but with his family escaped unhurt, except by slight bruises received from rubbish which fell from the house. It took some stone, which would weigh, I should think, 6 or 700 lbs, carrying them some distance in the air, and dropping them square down upon the ground.—It then rushed on its maddening career, destroying acres and acres of grain, threshing it as clean as a machine could do it, and sowing it everywhere it went, and after cutting some curious freaks in the air and upon the earth, jumping fences, smashing a reaper, and moving another frame house about two or three inches around on its foundation, it narrowed up into a small tube, resembling the hose of a fire engine—broke from the earth, and disappeared in the clouds, from whence, we hope, it may never return.

B.

Another Description.

FOUNTAIN PRAIRIE, Aug. 22, 1857.

To the Editors of the Sentinel.

GENTLEMEN:—I write this to inform you of a tremendous tornado which passed over a portion of Fountain Prairie, Columbia County, yesterday, about 5 o'clock, P. M. Its first appearance was a very heavy cloud in the west, threatening a violent storm of rain; soon there was to be seen a still blacker cloud in the shape of a large funnel with the small end down, and the appearance of a cloud of dust passing up from the bottom and in continual connection all around it; atop the funnel-shape seemed to give way, and it streamed high up into the clouds, breaking away at the bottom until at last it appeared to hang by the upper end and wave in the air like the tail to a kite. Again it appeared to assume its former position, streaming from below high up in the clouds, with a stream passing up and down, much like the fire and smoke passing from the pipe of one heated stove; after a short time, it disappeared; its course was from west to east, about 40 rods wide, taking everything in its course. The first damage done was the house of H. M. Moorey—all torn into pieces; his wife much bruised, but will probably recover. A man by the name of Charles Clark who was working for him in harvest, was blown 8 or 10 rods in connection with pieces of boards and killed; he breathed but a few times after he was found. Mr. Clark's son was considerably hurt; passing on from this, it took everything in its way, stripping the fields of wheat, which had been cut and was in the shock, completely bare, carrying away everything but what wheat it threshed and left on the ground; the next it came in contact with was the house of Harry Palms—his wife being very tired, had taken all the children and gone down cellar, except one. Mr. Palms, seeing it coming, had just time to step down cellar with the other, when his house was raised about 20 feet in the air, and blown all into pieces, some of the timber carried 80 rods; his wagon scattered in every direction—a part of one of the tires found three-quarters of a mile off. A new reaper belonging to James Huntington, standing in the field, was all broken up. I understand it done much damage west of this place—a number of houses torn down.

S. M. S.

WASHINGTON ITEMS.—A dispatch dated the 21st says:

Five colored messengers were dismissed to-day from the Patent Office, in conformity with the principles established by the Dred Scott decision.

Col. Johnson of the Cavalry and a large number of officers are here, consulting with the Secretary of War on the employment of the army to suppress Indian hostilities.

The splendor of the Utah expedition has quite faded away. Only two regiments of infantry, one battery and one squadron of dragoons will go to Salt Lake.

Another Destructive Fire at St. Paul.

On the 18th inst., about 11 o'clock at night, a fire broke out in St. Paul, on the corner of Fourth and Roberts streets, which resulted in the destruction of property to the amount of $25,000. The sufferers are: N. Schwartzenburg, loss mostly of stock; John Huckleermiller, saloon fixtures all destroyed; Charles Stolz, fixtures destroyed; M. McLeod, four buildings totally destroyed; R. G. Sharpe, loss of stock; Ex-Gov. Ramsey, building; Sedam & Wagner's bakery; C. Bergfeldt's stone store; J. Bidwell, Robert street House; Willoughby & Powers; D. Kelly, St. Louis Exchange. The fire is said to have been the work of an incendiary, and it was rumored that the Vigilance Committee had fixed on the perpetrator.

HYATT HOUSE FESTIVAL.—The arrangements made by Mr. McDonald for the festival are progressing rapidly, and the opening entertainment promises to be a marked event in the local history of Janesville. A committee has been engaged to dispose of the tickets to residents of the city, and we hope to see such an assemblage of our citizens Wednesday, as has never before been witnessed.—*Janesville Gazette.*

R. & W. R. RAIL ROAD.—We understand that the contract for building this Road from the Junction to Winneconne, has been let to G. S. LYMAN, Esq., of Ripon. A force will be put on the line in a few days, and the work will be pushed forward as fast as men and money will do it. The fact of Mr. LYMAN having the contract is a sure guaranty that the Road will be built.—Look out for the "iron horse;" he'll be here directly!—*Omro Republican.*

LARGE HAIL.—We have been informed by a gentleman who was at Beaver Dam on Friday last, that hail fell at that place some of which weighed 18 oz. The storm from which these hail proceeded was evidently the same which occasioned such destruction on Fountain Prairie—Portage etch, at Beaver Dam, it was unaccompanied by a heavy blow, or the destruction of windows would have been very great.—*Columbus Rep. Journal.*

CITY MATTERS.

Police Court, Aug. 25

BEFORE CLINTON WALWORTH, POLICE JUSTICE.

Alonzo Barrington, charged with violating Rack Ordinance, discharged.

John Daily, intoxicated, fined $1.

Ivin Natves, (alias) intoxicated, $1.

John Native, (alias) intoxicated, $1.

Eliza Tompkins, drunk, sent up 10 days in default of fine of $5 and costs.

Thomas Sletcher, do. sent up 5 days in default of fine $1 and costs.

William Waterman, intoxicated, sent up 3 days in default of fine $1 and costs.

Mitchel Kneff, intoxicated, and disorderly, sent up 10 days in default of fine of $5 and costs.

John Dillon, Mary Dillon, Edward Kavanagh, charged with being disorderly, case continued to Aug. 27th, 1857, at 9 A. M. for trial.

William Day, intoxicated, fined $1.

Gustave Escher, convicted of stealing planks, fined $20 and costs.

John Edward and Thomas Daffy, convicted of larceny at the store of J. H. Friend & Bros. sentenced four months each on the County Jail.

Morris Murry, charged with stealing a lease worth one hundred and sixty-six dollars from the shop of D. C. Murry & Co. Examined and committed in default of $500 bail for his appearance at Circuit Court.

The Opening Festival at the Newhall House.

The opening of the Newhall House was celebrated yesterday with all the honors. All day long, after the arrival of the first trains, the guests came pouring in, and, though the opening for business was not announced to take place till to-day, and, on account of the dining-rooms being in use in preparing for the Festival Supper, no meals could be furnished yesterday. Messrs. KEAN & RICE made all those who were specially invited comfortable in their rooms, besides doing the honors to large numbers from abroad who applied for quarters. The house warmed with people all the afternoon.

The list of those from abroad who were in the city on this occasion would be too long for a heavy sketch like this, but we recognized among them a large number of our editorial brethren, of whom the following is as full a list as we could obtain:—C. D. ROBINSON, of the Green Bay *Advocate*; W. C. ROGERS, La Crosse *Republicon*; Dr. BLAKESLEE, La Crosse *Democrat*; S. D. CARPENTER, Madison *Patriot*; Mr. HAWLEY, Chicago *Journal*; H. RUBLEE, Madison *Journal*; Mr. MALLO, Columbus *Journal*; D. L. BROOKS, Beloit *Herald*; Mr. POWERS, Horicon *Argus*; W. M. WATT, Jefferson *Jeffersonian*; Mr. BALLOU, Watertown *Democrat*; H. L. RANN, Whitewater *Register*; HARRISON REED, Neenah *Conservatory*; Mr. RICHARDSON, McGregor (Iowa) *Times*; J. A. BROWN, Portage City *Badger State*; BERIAH BROWN, Ex-Editor *Madison Argus*; S. RYAN, Appleton *Crescent*; M. LOWMAN, Reedsburg *Herald*; J. A. HADLEY, Ex-Editor Watertown *Chronicle*; R. L. GOVE, Ozaukee *Advertiser*.—There are doubtless others, whom we did not meet, but we call that much a pretty respectable "Editorial Convention."

The house presented a brilliant appearance in the evening, lighted up through both fronts, and great crowds of people were gathered on the opposite sidewalks, enjoying the sight, and the fine music from the bands on the balcony. Within "all went merry as a marriage bell." A covered way was laid across Michigan street, so that persons could pass to and from Albany Hall, where the Ball was held. The arrangements were well made, and well carried out.

But we must leave for another day the story of the Ball, and the magnificent Supper, and of who made speeches, and what they said and sung, and how they danced into the long hours, and into the short ones.

It was a good time, and thoroughly easy.

THE JUNEAU BANK OPEN TO-DAY.—The officers of the Juneau Bank are at length completed, and the institution will be fully opened for business, from and after to-day. The banking office fronts on East Water and Wisconsin streets. An elegant marble counter, surmounted by handsome iron filagree work, runs along the room; in one corner is a large vault, burglar and fire-proof, guarded by doors and locks of approved pattern and make, furnished by SCHUMACHER & JOHNSON. In rear of the counter, in a niche of the wall, may be seen an admirable life size portrait of the late SOLOMON JUNEAU, painted by Messrs BROOKS & STEVENSON, well known and deserving artists.—It is equally creditable as a likeness and as a work of art. Next to the Banking Room is the Directors Room, fitted up with much taste and elegance, and beyond this, fronting the river, is the private office of Mr. JAMES LUDINGTON.

No expense has been spared in fitting up the Banking Rooms in a handsome style, and all the work has been uncommonly well done. Mr. JAMES ALLEN had the charge of the Masonry; Mr. GEORGE SOUTHWELL of the Carpenter work; Messrs. HARPER & BROS., did the painting, and J. J. MCGRATH & Co., the papering; HOFFMAN & Co., furnished the marble counter, and BAILEY & GREENSLADE, the iron railing. The handsome carpets are from BRADFORD & BROS. All the outward adornments are perfect of their kind, and the Bank has, besides, substantial elements of prosperity and cannot fail to do a large and remunerative business. It opens finally for business this morning, and we advise those of our country friends who may be in the city, to call and take a look at the JUNEAU BANK.

☞ A Sabbath School Anniversary will be held in Albany Hall on Friday afternoon, 28th inst., commencing at half past one o'clock P. M. Several Schools from abroad are to be present.

All the Sabbath Schools in the city are invited to be present, as there is ample room for all who may attend.

☞ Dr. James Diefendorf, a successful practicing physician of this village for over twenty years, we regret to learn, has fully determined on taking up his residence in Milwaukee, Wisconsin. A portion of his family now reside in that city, and the inducements offered, seem to have no counterbalancing influence in a well established citizen. His many friends in this vicinity, will very much miss the Doctor and his interesting family—and their good wishes will follow them to their new home, in the enterprising West.—*Mohawk Valley (N. Y.) Register.*

It gives us great pleasure to copy the above announcement from a Fort Plain paper, in regard to our old friend. Our acquaintance with Dr. DIEFENDORF dates back some seventeen, or eighteen years, and we can heartily and conscientiously endorse all the good things said of him by his old neighbors in New York. The Doctor is stopping, for the present, with his son-in-law, JAMES B. KELLOGG, 299 Milwaukee street, where those needing his services will no doubt be sure to find him a skilful and attentive physician and an honorable man.

MT. VERNON (N. Y.) BOARDING SCHOOL.—We had the pleasure yesterday of meeting an old friend in the person of S. SHELDON NORTON, the esteemed principal of the "Mt. Vernon Boarding School for Boys," located in the pleasant village of Vernon, Oneida County, New York, which has for some years past been justly considered one of the very best schools in that State, which abounds in good schools. We are glad to learn that Mr. NORTON has some idea of coming to the West to establish a like school, and it could not a most valuable acquisition to our city if he would be induced to select Milwaukee as his field of operations. There is a fine field open for such a school.

Should any of our readers be looking for a boarding school at the east to which to send a boy, we can with great satisfaction recommend them to Mr. NORTON. Some of the circulars may be found at our office.

ST. ALOYS'S ACADEMY.—We invite attention to the advertisement in to-day's paper, of this new school for boys, about to be opened on Third street, in the Fourth Ward. It is not designed to be sectarian in character, but open to all, and will be under the charge of a Member of the Society of Jesus. These gentlemen are not only accomplished scholars themselves, but excellent teachers, and they propose to give very thorough instruction in all the branches of education which they undertake. Their terms are moderate, their school building neatly and conveniently fitted up, and the site pleasant and healthy.

SPLENDID BILLIARD TABLES.—In the Billiard Room, adjoining the Bar Room of the Newhall House, four splendid tables, from the manufactory of ORIE FIELD & Co., of this city, have just been put up under the immediate supervision of Mr. B. E. DICKINSON. No better tables can be found anywhere, while the accessories are all of corresponding excellence. Lovers of this attractive game will find the Billard Room of the Newhall House amply and admirably furnished.

THE BARBER SHOP AT THE NEWHALL HOUSE.—Mr. GOETZ opened for business, yesterday, in his new Barber Shop, at the Newhall House, and his chairs found plenty of occupants. The room is large, airy, tastefully furnished, and well provided with all the requisites for a first class Barber Shop. It is directly under the principal entrance on Main street, and may be reached directly from that street, or by the entrance on Michigan street.

THE LUMBER BUSINESS—NEW FIRM.—Messrs. MEDBERY & SANDES, have just opened a new Lumber Yard, on the south side of the Menomonee River, opposite the M. & M. Railroad Depot where they are prepared to sell all varieties of Lumber at accomodating rates. Their yard is well located for business, and we take pleasure in commending them to public favor and patronage.

BREWSTER HOUSE, FREEPORT.—The Brewster House at Freeport, Ill., will be opened on the 1st of September next, on which occasion the proprietors, Lyon & Baker, give a grand festival.—The Great Western Band, of Chicago, will be in attendance.

We acknowledge the receipt of an invitation to the Festival.

For the Sentinel.

Messrs. Editors:—I do hope, out of respect to our Fire Department, that the very *ungentlemanly* (to say the least) treatment a member of engine Co. No. 1 received from the Foreman of No. 6, on Sunday evening last, will not again be repeated. While in pursuit of the company, of which he is a faithful member, soon after the first alarm was given, he was suddenly assailed by said Foreman, forced to their engine, and told, too, that unless he complied, he would be knocked down on the spot. And when he arrived at the street upon which engine No. 1 is located, they would not him go, but compelled him, by force, to remain upon their rope.

A FIREMAN.

REAL ESTATE SALES YESTERDAY.—Mr. J. S. FILLMORE, Land and and Collecting Agent, No. 246 East Water street, reports the following registered sales of Real estate:

THIRD WARD.

Lot 2, of S ½ S 2 of L 3, R 7.....7,000

LATEST NEWS.

BY MAGNETIC TELEGRAPH.

Heavy Failures in New York—Rapid run of Thompson the Broker.

NEW YORK, Aug. 25—2 P. M.

It is currently reported that Messrs. Delany, Iselin & Clarke, bankers, and John Thompson, Banker and Broker, and publisher of the Counterfeit Detector, have failed.

The liabilities of the Ohio Life Insurance Company are estimated from $5,000,000 to $7,000,000; about $700,000 of the checks paid out by the New York Agency on Saturday and Monday, are unpaid.

Messrs. Brown Bros. & Co., and others, have placed an attachment upon the assets of the Company, on a foreign corporation, and the Sheriff and his Deputies are in charge of the office property. The immediate embarassment of this Company arose, we understand, from its inability to meet loans made by it. The proceeds of these loans had been used in sustaining Western railroads, some of which have received an advance exceeding half a million. The President states, in a card, that the capital of the Company, $2,000,000 is sound and reliable, exclusive of such losses as may arise from the insufficiency of securities from loans made by the Company.

NEW YORK, Aug. 25.—8 P. M.

The Steamship North Star, from Southampton, arrived last night, with London papers of the 12th inst.

The American horse, Prioress, competed with four others for the Sussex Cup, on the 11th, and came in fourth best. There is no other news by this arrival.

The branch office of the Ohio Life Insurance and Trust Co., in this city, is now in possession of the Sheriff—some of the principal attachments, in behalf of the American Exchange Bank $447,000; Ocean Bank, $149,00; Brown Bro's & Co., $100,000. There are a large number of others for smaller amounts. The advance to the Cleveland & Pittsburg R. R. are mentioned as among the most important made by the Company.

WASHINGTON, Aug. 24—2 P. M.

Hon. Richard R. Meade, Minister to Rio de Janiero, will leave next month for Brazil. His instructions, which are now being prepared, are very important, and relate to the negotiations of a new commercial treaty, and the reductions of the rates of the high Brazilian tariff.

Mr. Ramsey, of South Carolina, will be appointed Secretary of Legation to Brazil.

Mr. Meek, of Pennsylvania, has declined the appointment of Indian Superintendent to Utah.

The Attorney General has decided that the Commissioner of Patents, cannot in any case refund the portion of a caveat, not having an application for a patent, in any possible sense of the term.

The remaining portion of the Choctaw appropriation lands, are to be offered for sale to the highest bidder. Sealed proposals will be received by the land offices of Mississippi, until the 1st of November.

The Attorney General has ordered a *nolle prosequi* in the case against Montgomery, who removed the squatters from the Indian trust lands and destroyed the habitations in Kansas.

ST. JOHNS, N. F., Aug. 25.

The line below Newfoundland has been repaired and is now in fine working order. The weather, yesterday, was very foggy, with rain and strong south west wind, but is fine and clear this morning, with a light southwest breeze. There are no signs at Trinity Bay of the telegraph cable fleet.

AUGUSTA, Ga. Aug. 25.

Late intelligence from Florida is to the effect that Capt. Mickeers, of the Florida Volunteers, have captured five Seminoles. The Indians hoisted a white flag. Hopes are entertained that the war is nearly over.

NEW YORK, Aug. 26.

E. S. Monroe, banker, is reported failed. Attachments to the amount of over $1,800,000 against the Ohio Life Insurance and Trust Co. have been issued to-day.

OSWEGO, Aug. 25.

An old gentleman named Joshua Hibbard, formerly a druggist in the U. S. service, living on a farm in the vicinity of this city, was most brutally murdered last evening by a man named Dennis Sullivan. The murderer has been arrested. No cause has been assigned for the deed.

WASHINGTON, Aug. 26—2 P. M.

There are 18 bidders for the contract for the new sloops of war: their models are to-day on exhibition: the decision will be made in accordance. Chas. E. Stuckin has been appointed one of the Associate Justices of the Supreme Court of Utah, vice Sales removed. By the arrival of the mail as late as due, we have New Orleans dates of the 18th, and Galveston of 16th inst. The Galveston news says that the majority for Runnels, the Democratic candidate for Governor, will not be less than 10,000. The Civilian says that great excitement is existing in Houston, owing to the discovery of a plot got up by a gang of thieves to kill the City Marshal. The ringleaders in the affair were captured. The accounts of the cotton crops in the interior of Texas were encouraging; picking had fairly commenced. The effects of the drought on the frontier were deplorable. The Pacific R. R. is being graded at the rate of 2 miles per week, and 500 hands were engaged on the work.

NEW YORK, Aug. 25—9 P. M.

Mortimer Livingston died yesterday.

NEW YORK, Aug. 25.—9 P. M.

The assets of Mr. Thompson are largely in bank notes not available at present, and other securities alike of small value in the present excited state of the market.

The embarrassments of Delany, Iselin & Clark, thus far are only to their stock business, the house, however, are understood to have purchased some exchange on short time.

The collapse of the Ohio Life Ins. & Trust Co. are freely discussed in the street. It is stated that the Pittsburg and Cleveland Road owes it $500,000, for which its bonds are pledged. The Bank of Norcalk has its account with the Co., and report that its funds are well as its collection paper have been used by the Trust Co. in common with the collection paper of other Houses. The funds of many western travellers are made unavailable, causing much inconvenience.

No statement has been made of the affairs of the Company, but it is understood that within a few days a full exposition will be made.

MARRIED.

At noon of Lake, on the 23d inst., by B. H. Persons, Esq., Mr GEORGE P. WOOD, to Miss LUCY A. BATH Eq., both of that place.

DIED.

In this city, on the 25th inst., of dysentery, EMMELINE, wife of A. W. Coe, aged 35 years and 12 days.

☞ Funeral will take place at the late residence of the deceased, corner of Third and Poplar Streets, on Wednesday, the 26th, at 2 P. M. Relatives and friends are invited.

☞ Eastern papers please copy.

Milwaukee Ornamental Glass Works,

FOWLER St., between 4th and 5th Sts.

WILLIAM GETHING, manufacturer of ornamental, stained, frosted and cut glass, for public buildings, churches, dwelling houses, &c; glass globes and shades, a great variety on hand, and manufactured to order in any style or pattern, and dealer in French and English plate, crystal, sheet and double thick glass. Orders by mail will be promptly attended to.

COMMERCIAL.

MILWAUKEE MARKET.

OFFICE OF THE DAILY SENTINEL, Milwaukee, Aug. 26, 1857.

Without material change.

...varies yesterday dull and ...like decline in wheat is ...spring at 1,10@1,12½, and wh... common to good red and white.

...ade doing.

...No ... Wh...

...sales as ... from 1,08@1,26 to ...

Rye—92@1,00.

Barley—70@80c, and lo...

Corn—74@75c.

Oats—58@57c.

Potatoes—14@16.

Eggs—18@20.

Butter—10@22 for common firkin to fresh roll.

Hides—5@9 for green, 10@14 for dry.

Chicago Market.

CHICAGO, August 22.

Wheat—1 car load of red sold at $1,18 in store, which was 2c above the current price. Spring was steady—Sales was bought by one party, and 1,000 sold another at $1,08@1,10. We quote in store White Winter No. 1 at $1,08@1,12; No. 1 Red $1,10; extra Spring $1,05; Spring $1,05.

Corn—was in fair supply and was freely offered on change at 71c for remnants on board with few buyers; 5,000 bus were taken at this. In store it was worth 68c.

Oats—ruled the market at declining rates. They were offered to-day in bags at 38c at the depot, and in store would not bring over 36c, though some parties would refuse their prices.

Barley—is in good demand at 70@75c with a moderate amount offering.

Rye—is light supply 85c.—*Press.*

By Magnetic Telegraph.

NEW YORK, August 26.

FLOUR—market very heavy and 10@15c lower; sales 4,000 bbls at $4,80 for super state; 6,400@5,60 for extra state; 6@6,30 for super western; 6,40@6,80 for common to medium extra Michigan, Ind., Ill., Wis. & Ohio 6,85@8,30 for extra western; 7,10@8,60 for extra St. Louis; market closing with a strong tendency. Canadian flour lower; sales 500 bbls at 6,10@6,85 for super; 6,70@8,10 for extra. Rye flour lower; sales 150 bbls at $5,55.

WHEAT—no old offering; new southern has declined 3@5c; sales 42,000 bus at 1,40@1,45 for red; 1,55@1,70 for white; closing at 1,40@1,50 for the former, 1,60@1,65 for the latter.

RYE—dull at 90@91c.

Nothing doing in barley; there is a large lot of Oats for sale on dock.

CORN—is about firmer, with a moderate export and home trade; sales 80,000 bus mixed western at 65@65½c delivered.

OATS—plenty at 55@59 for state, 60@63 for western.

WHISKEY—market steady; sales 400 bbls O & P at 23½c.

PORK—prices droopier; sales 550 bbls at 20,75@24 for mess; 21,75@22 for prime; closing at inside prices.

BEEF—steady; sales 100 bbls at 17@18 for repacked western; mess; 13,50@12 for extra do.

BACK JAMES—dull at 28,50@24. Prime mess kept nominally $0@30.

CUT MEATS—firm at 12 for shoulders, 13 for hams.

BACON—scroll sales western smoked at 15.

LARD—quiet; sales 160 bbls at 10¾@10¾c.

BUTTER—steady at 13@18c.

CHEESE—At 2d board to-day were generally firmer.—There are no more failures announced. Erie R R 58; C & T 90½; Reading 81; I C 104; C & P 16; Gal & R 85; N Y Cent 94½; Hud 103. There is a decrease in the stock at the 2d board, and market closed with a more confident tone. No more failures having been announced, holders are not inclined to make any further sacrifices. The Banks have been heavy purchasers today.

BUFFALO, Aug. 26.

FLOUR—lower; 1,500 bbls at 5,75 for straight fall sold, $6 do 6,25 and Indiana, 6,25@6,50 extra do.

WHEAT—closes lower; 10,000 bu at 1,04@1,26 for red Ohio and Michigan; 1,35@1,45 for white Michigan and Genesee.

CORN—advanced; 46,000 bu at 80@85c.

OATS lower; 7,000 bu at 40@45c.

BARLEY—@84,00.

RYE—@8c.

WHISKEY—1,400 bbls at 22c.

FREIGHTS—Corn 8½ to Albany, 10 to N. Y.

IMPORTS at Buffalo—1,000 bbls flour, 7,000 bushels wheat, 20,000 do corn, 4,000 do oats.

EXPORTS—7,000 bu wheat, 97,000 do corn—mostly tidewater.

VOLUME XIV. MILWAUKEE DAILY SENTINEL, WEDNESDAY MORNING, AUGUST 26, 1857. NEW SERIES.

THE DAILY SENTINEL.

KING, JERMAIN & CO.,
PUBLISHERS AND PROPRIETORS.
RUFUS KING. C. D. JERMAIN. H. D. BRIGHTMAN.
MILWAUKEE:
WEDNESDAY MORNING, AUG. 26.

Great Telegraph Miscellany.

Just now, while the great cable which is to join two worlds is being laid across the ocean and we are anxiously waiting for the first flash of the lightning, all items in relation to the enterprise are interesting, and our exchanges are full of them.

The expense of the enterprise is several millions; the cost of the cable being over a million of dollars, exclusive of the cost of an electrical apparatus, machinery for laying it, &c. The assistance rendered by the governments of England and the United States, in furnishing ships and crews, is also left out of the estimate, which is as follows:

Contract price of deep sea wire per mile	$90
Price of spun yarn and iron wire per mile	265
Price of outside tar per mile	10
Total per mile	$365
for 2,500 miles	$1,312,500
Ten times of deep sea wire, with steel covering for land ocean connection at $1,050 per mile,	105,000
Twenty-five miles of shore ends at $3,000 per mile	21,250
Total cost	$1,438,750

The cost of sending a message is variously stated. The New York *Times'* correspondent says it cannot exceed $5 for a single message between London and New York. Others state the price is to be fixed at 62½ cents a word. Another writer says £4 for a despatch of 20 words or under.

In the late experiment at Valencia Bay of sending messages through the whole wire, the electrician noted that a considerable interval of time elapsed during the passage of the current, the amount of retardation being equal to nearly a second and three-quarters upon each electrical wave or signal. Yet, notwithstanding this, it was found that three signals could be practically and intelligibly transmitted in two seconds. This confirms the accuracy of the previous experiments made upon shorter circuits of wire, by which it can co-exist, in a long unbroken length of completely insulated conducting wire, and yet reach their terminal destination with sufficient intervals between them to record intelligibly the indications they are intended to convey.

The company has a capital of £150,000, divided into shares of £1,000 each; and the charter of the New York, New Foundland and London Telegraph Company, as made over to the new Company, in consideration of which the former are to receive 10 per cent per annum dividends on existing shares, and then half of any further profit.

The Government of England and the United States have also agreed for twenty-five years to pay to the company, up to the time when its dividends shall have reached 6 per cent, a subsidy of £70,000 a year, and of £80,000 a year after that —besides affording valuable assistance in laying down the cable.

The Lord Lieutenant of Ireland was present at the landing of the shore cable at Valencia, and took an active interest in the work; for several hours he stood on the beach, surrounded by his staff and the directors of the railway and telegraph companies, waiting the arrival of the cable, and when at length the American sailors jumped through the surge, with the answer to which a line was attached, his Excellency was amongst the first to lay hold of it and pull it lustily ashore. Indeed, every one present seemed desirous of having a hand in the great work; and never before, perhaps, were there so many willing assistants at "the long pull, the strong pull, and the pull altogether."

Cyrus W. Field summed up the international feeling evoked by the great enterprise in the concluding sentence of his brief and pointed address —"WHAT GOD HAS JOINED TOGETHER, LET NO MAN PUT ASUNDER."

The last sentence, by the way, is one of those proposed as the first one to be sent by Queen Victoria to President Buchanan, but it is said that our bachelor President has remonstrated against this.

The New Orleans *Picayune* hints at a difficulty in the intelligent transmission of messages by the submarine telegraph, in consequence of the difference in time (some five hours) between London and New York. For instance, how odd it will be to have a message to the following effect:

"LONDON, Tuesday, Oct. 20, 1 o'clock p. m.—The Emperor was shot a few moments ago, while going home from the Italian Opera House, whither he had gone to hear Verdi's new opera."

An extra would, of course, be issued in New York at 5 o'clock in the evening, worded probably to the following effect:

"Louis Napoleon was shot at to-morrow morning at 1 o'clock, while going from the Italian Opera House. No further particulars."

THE "FORTY" ON THEIR TAPS.—Among the delegates to the Democratic State Convention at Madison, to-morrow, we notice the following names, redolent of the odor of ye ancient Barnburnie dynastie:—E. B. KELSEY, SAT. CLARK, LEE WOODLE, A. T. GRAY, GEO. THOMPSON, A. F. PRATT, TEMPLE CLARK, W. H. THOMAS, with others of the same sort.

CHICAGO AND MT WARREN RAILROAD.—At a meeting of the Directors of the consolidated road, we understand that M. L. SYKES, Esq., late of the Hudson River Railroad, was chosen President, and C. R. WATKINS, Esq., of Milwaukee, Vice President.

Democracy Denounced by an Ohio Judge.

Judge R. B. WARDEN, of Ohio, a leading democrat up to the present, and elevated by that party to the Supreme Bench, upon his reading the resolutions of the Ohio Democratic State Convention, immediately denounced the same, and renounced the party. He says of the endorsement of the decision of the U. S. Supreme Court in the Dred Scott Case that,

"It cuts the throat of popular sovereignty in the territories, and of every democratic principle in the Cincinnati platform, destroys all compromises, opens the door for traitors and disunionists to enter the party, closing it against all others."

A NEW PLAN TO EXTINGUISH FIRE.—A writer in *Hunt's Magazine* suggests a new plan of extinguishing fires, worthy certainly of a trial. It is simply saturating the water of the fire engine with common salt and potash—both very cheap articles, and both acting together to impregnate the wood so that the flame cannot spread any further; that is, the muriatic acid flies off, and the soda remains as upon a glazed surface. The suggestor of this idea even goes on to say that many a fire, which is within reach, might be stopped without any engine, by discharging finely powdered clay, lime, or chalk through a tube on the blaze.

PRINTERS IN PENNSYLVANIA.—It is a singular fact, that not only the two United States Senators from Pennsylvania, and the three supreme court judge, but the present Speaker, clerk and assistant clerk of the House the clerk of the Senate of Pennsylvania, and the democratic candidate for governor and canal commissioner, are all practical printers.

☞ The Providence *Journal* is informed that EB Fraser has purchased of the Corliss Steam Engine Co., seven steam engines, equal to 540 horse power, to be used for driving saw and grist mills on lands purchased by him and others, in West Virginia.

GRAIN IN RUSSIA.—A letter from Moscow, July 16, reports the almost entire loss of the wheat crops of this year in several of the most important wheat growing governments (districts) of Russia; an open winter and long drouth are assigned as the causes. It is also stated that the grain will be retained in the interior, and little or none exported.

Chicago and Liverpool.

The Grand Trunk Railway Co. of Canada have made arrangements for the direct transportation of passengers and freight from Liverpool or London to Chicago via Portland and Quebec. Passengers are ticketed from Liverpool to Chicago, via steamboat to Portland and then by railway, for $45, provisions included—time 12 to 14 days; via packet to Quebec and thence by railway for $35, provisions included. Tickets can be procured in Chicago of Mr. James Warnock, Agent, No. 26, Dearborn street.

Contracts for freight from Chicago to Liverpool, and [illegible] can also be made with the agent in this city; and the Grand Trunk Railway Co. state, "that goods will be conveyed from all ports of western Canada, Detroit, Chicago, &c., *at one dollar per ton less* than the rates from or to these places;" and the port charges are also less at Portland than at Boston.

Nor is this all: not only are the rates of freight less by this line than any other, but merchandise will be more expeditiously forwarded, as it will be done under the direction of one company, and bills of lading will be issued from Liverpool to the nearest point of the destination of the goods.

The railroad being of uniform gauge from Portland to Detroit or to Collingwood, merchandise, is transported from Portland to either of the points named without change of cars; until the Victoria bridge across the St. Lawrence is completed, the Grand Trunk Railway company will convey loaded cars over the river, from Point St. Charles to Montreal, in ferry steamers. —*Chicago Journal.*

We copy the above statements from the *Journal*, in relation to the late very important movement of the Grand Trunk Railway of Canada, for the benefit of our readers, inasmuch as we in Milwaukee are, if possible, still more interested in it than even our Chicago friends. On the completion of the connection across the lake, we shall be at once placed on the air line route, and derive immediate and very great benefit from connection with the Grand Trunk system.

The Magnetic Telegraph.

From a long and valuable article in the N. Y. *Herald* of the 21st inst., we take the following aggregate of miles of telegraph line now in use in this country:

The estimated number of miles of telegraph lines east and north of New York is:

	Miles.
Of posts,	3,000
Of wires strung upon posts,	11,500
South and southwest of New York:	
Of posts	8,600
Of wire strung upon posts,	17,200
West and northwest of Buffalo and the Ohio:	
Of posts,	8,600
Of wire strung upon posts,	10,000

—making a grand total in the whole country of about twenty-five thousand miles of posts, upon which there are strung about thirty-three thousand miles of telegraph wire.

The nominal capital invested in the existing lines is estimated at $4,000,000, but the actual cost of construction did not probably exceed $2,000,000, the balance having been about equally divided between the contractors who built the lines and the Morse patentees.

The estimated number of messages passing over all the lines is 4,000,000 per annum, or about 13,000 each business day.

It would appear from the calculations that we have made, that of overland and submarine telegraphs there are completed and in progress of construction at the present time—

United States, (overland)	33,000	miles
South America, (overland)	1,500	"
Europe, (overland)	27,900	"
India, (overland)	5,000	"
Submarine, (European and America)	900	"
Total,	78,350	"

This aggregate will be increased 1,500 miles by the completion of the Atlantic telegraph.—Of the European and Indian telegraphs not more than from six to seven thousand miles of the line commenced are published, and the next six months will probably see them all in operation.

In the estimate of the American telegraphs above given, none but the lines actually completed are included. The nine hundred and fifty miles of submarine lines are also finished. This statement will enable us to form some idea of the immediate as well as prospective results to which the successful completion of the Atlantic telegraph will lead.

GREAT FLOOD IN NEW YORK.—*From Monday* morning, Aug., 17th, until Tuesday morning, it rained almost incessantly at Utica, and the streams rose to a great height. The track of the Utica and Black River Railroad was washed away for about sixty feet: the dam of the Globe Mills was carried off and the Steam Woollen Mills damaged to the amount of $15,000. Several buildings were carried off or damaged by the overflowing of the Erie Canal. Outside of the city, the damage was mostly confined to the crops. In Herkimer County, the damage of this sort is reckoned as high as $40,000 to $50,000. The New York Central Railroad was undisturbed. On Tuesday morning, says the Utica *Herald*, the water in the Mohawk presented a novel appearance.

"Nearly the entire surface of the current was covered with small black grasshoppers, which had been swept away from the hay fields above. Particles of wood, grass, and other floating substances, were literally covered with these insects, and occasionally a rat might be seen floating down upon a stub, enjoying a comfortable meal, fast upon the grasshopper community, which had sought the driftwood for protection. There were thousands, if not millions, of various creeping things floating down with the current, caterpillars, crickets, grasshoppers, gray-beards, infant frogs and toads, and an infinite variety of field and barn inhabitants, which had been suddenly swept away from their resorts by the flood."

KANSAS LANDS AND LAND WARRANTS.—The following note from the Commissioner of the Land Office may be of interest to those desirous of purchasing lands in Kansas:

GENERAL LAND OFFICE,
WASHINGTON, Aug. 18th, 1857.

SIR:—In reply to your oral inquiry of yesterday, I have to inform you that land warrants are receivable in Kansas, at this time, in satisfaction for pre-emption claims only. They cannot be received in payment for lands in that Territory until after such lands have been offered at public sale and become subject to ordinary private entry. Very respectfully,

your obedient servant,
THOS A. HENDRICKS,
Commissioner.

Equal Suffrage.

In a common sense of view, we can see no reason why negroes should be debarred the privilege of voting. The only requirements it seems to us, either of the statute or of common sense, to constitute a voter are manhood, intelligence and citizenship. That the negro is a man, that he is endowed with a human soul, it is idle to deny, nor has it ever been denied by the strongest champions of slavery. They talk of the inferiority of races, but we never hear of any one so absurd as to assert that negroes do not belong to the human race. Whatever absurdity their philosophy may have, it cannot be charged with such a monstrous absurdity as this. If to have the power of thought, of judgment and reflection, is proof of manhood, if to have the affections that cling to home and friends, and the hope that reaches to Heaven be proof of manhood, then can the negro claim the name of man and though in the great family of nations he may be but a "poorer relation," still on that account he should not be denied the privileges which belong to him, by virtue of his creation and his humanity. By intelligence, as the second qualifications of a voter, we mean simply that every person should have the right of suffrage, according to our Constitution, who has understanding and is capable of judgment in regard to men and measures.—*Prescott Transcript.*

Where is Know Nothingism?

According to the results of the late election in several Southern States, Know Nothingism is completely merged and amalgamated into Buchanan Democracy, and is therefore as good as abandoned in the south. This will lead most inevitably to a like abandonment in the north. It is already defunct in Wisconsin, Illinois, and most northern States, and rotten in Iowa and Indiana—the leaders having all gone over to Buchanan, as agreed on before the Presidential election. The honest but deceived portion of their masses have fallen into the ranks of freedom. Know Nothingism is essentially a dead cock in the pit, everywhere. It is powerless for evil in any direction and will soon be known only as among the memories of the past. Henceforward the issues are to be between freedom and slavery—between slavery extension and slavery restriction—between the constitution as its framers understood and interpreted it, and the new renderings of the tools of the nigger interest.—*Grant Co. Herald.*

INDIANS.—We learn that a band of Sioux Indians, numbering nearly one hundred, has been encamped in Pleasant Valley, some 12 miles south of this place, for the past two weeks. Beyond taking a few provisions, we do not learn that they have committed any depredations on the settlers.—*Jackson Co. Banner.*

Letters about Milwaukee and Wisconsin.

NUMBER FOUR.

MY DEAR ——.—Milwaukee is still my text, and need I offer any apology, when so small a portion of the subject has been exhausted? If the handling of my themes shall have a tendency to remove your general prejudices for the West, and induce a special kind feeling for this place, I shall not have scribbled my pen in vain. You may perhaps have gleaned the idea from my last that the town is one pile of brick and mortar; but while my language signified a predominance of structures of that kind, you must not be ignorant that there are very many frame dwellings, and the mention of rent, for some mere shadows of houses, would startle you. Yet such has been the demand for dwellings that the smallest and poorest message which could claim the name of human habitation, has not lacked for tenants, and been eagerly sought for. This has been a temptation to put up many cheap ill-contrived houses; of mushroom growth, they must soon fall to decay. But there is another exception to the brick, in the stone which is occasionally used in building. This is procured in Illinois, and somewhat resembles marble. Mr. Newhall's private residence, and Cook's Bank, are fine specimens of this stone. The former is a princely mansion, and does credit to the architect and taste of the proprietor. Standing upon a good open site, there is a chasteness, a durability, a completeness in the style which wins commendations from all passers by. The latter promises to be a very handsome building, the covering, however, which is exercised on the facade for the purpose of beautifying it, from its inutility, and making more perceptible the soil of time and weather, suggests the idea that a more judicious application might have been made of the expenditure of money. Prominent among the public edifices is one now being built of marble,* by the United States Government, for the purposes of Custom House, Post Office, and United State Court. This needs no comment, as in general, Uncle Sam does his work well; and fortunate is the town, which from its distinction can command an appropriation from his coffers. The Newhall House, so named for its distinguished *proprietor*, is nearly completed, and stands unrivalled as a Hotel, by any west of New York. It is an elegant structure, commenced upon an extensive and enlarged scale, and finished with a liberality which ignores any meanness in plan, or detail. It is an ornament to the city, and does credit to the projector, as also to those parties, who in a critical moment, sustained his flagging efforts, and rescued the mammoth building from becoming a failure.

A hotel of superior order, is the great desideratum which the town has needed; not that any reflection is to be cast upon the present public houses, but the influx of strangers and the demand for accommodations has exceeded their capacity to supply; and when such a state of things exist, there is always room for competition. A place takes its rank among the travelling public, by the character of its Hotels; they are a sort of mouth pieces for the community in which they are located. If the manner in which the houses have furnished this house is an earnest of what may be expected in the disposition of its comforts in keeping, it will speak volumes in favor of Milwaukee: it will be like a blast from a trumpet on a high wall, heard far and near.

The opening of the house, is to be distinguished by an inaugural ball, on the 25th, which I will notice "en passant." Albany Hall, another pride of the place, is situated on the opposite corner from the Newhall House: the lower floor, is devoted to offices and stores, while the public hall, which gives name to the building, covers a large portion of the second story. It is a favorite concert room, and you can judge of its calibre, by its capacity to accommodate two thousand persons. Madame La Grange, Ole Bull, Thalberg, and the Black Swan, have successively given audience there, within a few months, and each, and all, have been handsomly patronized.

The *title* of the room, is an intimation, that the love of "Auld Lang Syne," is not defunct in the pioneers to this place, from the good old city of Albany. ENIGMA.

* The material of this building is the white stone from Illinois.

DEACON CLINTON.—On Tuesday evening last we had the pleasure of hearing this Rail Road advocate make a speech. At a very short notice a good audience was collected, in the Academy building, and Messrs. I. F. Mack and E. D. Clinton of Wisconsin, uttered, in an hour each, about as much sound Rail Road sense as we have heard in all our lives. We have had too many duties this week to enable us to get up a report of their remarks, but at some future time we will do so. As these gentleman expect to travel over the proposed line of the McGregor road, our readers will have an opportunity of hearing them on this vitally interesting subject. Not a man heard them here, but was convinced that our prospects of constructing a *paying* road to the Missouri River are better than can be shown in any other enterprize now projected. The investment of half the subscription in lands at low prices will save the stock, even if the road paid no more than expenses.

On next Monday evening another meeting will take place which will be of the greatest interest to every man in McGregor. Let us give the Deacon an overflowing house.—*McGregor* (Iowa) *Times.*

RUM AMONG THE INDIANS.—We do not claim any original discovery when we assert that alcohol is the stimulating and direct cause of four-fifths of our troubles with the Indians, as it is of four-fifths of the crimes among white men. If the government would inflict a heavy penalty on any one who sells the firewater to the red men, and then deputise a vigilant force to carry that law into execution and enforce that penalty, there might be hope like perpetual peace. Indians may smoke their kinnikinnik in a calumet, but a drink of whiskey is an emblem of contention and crazy wrangling. There is four times the need to-day for the government to station troops along the frontiers to prevent a nefarious traffic, and putting to the red lips of the poor Indian the cup that shall make him mad, than for the suppression of actual hostilities. This is the key to all our frontier difficulties. We sell to the wild and benighted savage something that makes him drunk, then we send government troops to bayonet him because he don't keep sober.

The Chippeways have been furnished with liquor on the Upper Mississippi, and have consequently become unmanageable and warlike. They have threatened the white settlers, and have driven the Rev. Mr. Brace from his mission at Leech Lake. This infamous traffic not only sets tribes against each other and lights feudal sparks of discord into a blaze, but imputs in jeopardy the lives of our settlers, our settler's wives and children, and runs [illegible] territory with blood.—*St. Paul Times.*

OBITUARY.—The works of Dr. Thomas Dick can be found in the libraries of most orthodox grandmothers in this country. His principal publications are "Celestial Scenery," "Christian Philosopher," "Improvement of Society by Diffusion of Knowledge," "Mental Illumination of Mankind," "Philosophy of Religion," "Philosophy of a future state," "The Practical Astronomer," "Sidereal Heavens," and a "Treatise on the Solar system."

Dr. Dick died at the age of 83, at his residence in Broughty Ferry, on the banks of the Tay, Scotland, where, says the Dundee Warder, he had lived for the long period of more than thirty years, quietly prosecuting his astronomical studies, engaged in the labors of an unostentatious benevolence, and enjoying the warm respect of all around him. Recently he suffered the bereavement of two grandchildren, and never thoroughly recovered the blow which he had thus sustained. He was married thrice and leaves a widow.

The Philadelphians and the English government made the latter years of Dr. Dick's life comfortable; the former by raising a subscription fund, and the latter by a small pension.—*N. Y. Mirror.*

LARGE MASS OF COPPER.—A short time ago we mentioned the arrival of a mass of copper from the Minnesota Mine, weighing eight thousand pounds, as being the largest ever brought down. We have now to notice one still larger, which came by the propeller *Mineral Rock*, last evening, weighing eight thousand five hundred pounds, from the Cliff Mine. It is the biggest yet excavated, and is supposed to contain ninety five per cent of copper.—*Detroit Free Press.*

For the Milwaukee Sentinel.
The Mary Lyon Seminary.

MESSRS EDITORS:—Will you permit the following statements respecting this Institution, a place in your columns. The plan of an Institution that should be to central and Northern Wisconsin what the Mt. Holyoke is to New England, was projected a few years since. The plan is now progressing steadily towards its completion. It may not be in place to state that the plan involves three things for its successful completion. The first requisite is funds, and buildings of sufficient importance to command the interest of community, and thus secure perpetuity. No small Institution can do this. Another requisite is a course of discipline and instruction, that shall give young ladies all of the real advantages that are enjoyed by young men in our colleges.

Also a plan of boarding is requisite, that shall reduce the expenses of board within the means of the middle and energetic classes of community. In addition to these, there is an internal spirit of an Institution that is energetic and self sacrificing required; without this last other preparations will be but lifeless walls.

To furnish these requisites of a truly thorough and complete Institution, is the aim of the Mary Lyon Seminary. The founders do not expect to complete it in a day, they do not expect to consummate the plan by merely opening a school, and calling it a college, or any other appellation, but by earnest regard and adherence to the spirit of their plan.

The bye-laws of the Board of Trustees, require that plans of building to the estimated value of $75,000 or $100,000, shall be designed before any part is commenced, and any part built shall be in conformity with the whole plan.

Temporary arrangements for buildings of respectable size have been made for the immediate opening of the Seminary, and a wing, or part of permanent buildings, will be built when $50,000 are secured. A large portion of the first $10,000 has been secured in this community. Wealthy and benevolent gentlemen, of the East, have given valuable encouragement, of about $5,000 or $6,000 at an early date, and promises of increasing the sum to $10,000 in due time. A building worth $10,000, with suitable lands and other means to the amount of $10,000 more, is designed as a basis of future operation.

Understanding that the success of female Institutions have depended mainly upon the efficience and wisdom of their teachers, the Trustees of this Institution have confidence that they have secured such a principal as will ensure success to it.

She has had an experience in the East, in charge of Seminaries, and also has secured a reputation in the West.

The following, from the Fox Lake *Times*, speaks of her previous connection with that community as teacher:

In addition to the above, we have the *Wisconsin Female Seminary*, under the charge of Mrs. S. A. Cooley, which deserves particular notice. This lady is perhaps as experienced and capable a teacher as can be found in the West. She was educated at Mt. Holyoke Seminary, Mass., and upon closing her studies at that institution, or soon after, resumed the principal management of one the most flourishing seminaries in the interior of New York, where she continued, and until her marriage with Rev. O. W. Cooley. She has received the high compliment of being strenuously urged to accept of the principalship of the Institution where she was educated. She has also been offered the highest post in the Female Department of Lawrence University, at Appleton, Wisconsin. Rejecting, however, all such proffers, she has come among us with the view of building up an institution here, that shall rival the best; and her success thus far, encourages a confident expectation that to the other facilities for education enjoyed by the people of Fox Lake may be added, as a permanent and flourishing establishment, that over which this accomplished lady presides.

The Institution there referred to closed, and its interests merged in the Seminary here.

Such, in brief, are the plans and prospects of the Mary Lyon Seminary. And our appeals for funds and patronage are, to an intelligent community, based upon the idea of securing a thorough intellectual and moral training, and upon an effort to reduce the cost of such an education; not upon any attempt at a parade of mere ornamental accomplishments, or upon any small deduction of cost in tuition by scholarships.

A plat of about eight acres, upon an eminence near the Wisconsin river, a short distance from the depot, on the La Crosse R. R., at Kilbourn City, has been secured for a site. The influences in the community are eastern. Many families here were trained within sight of Miss Lyon's native hills, and educated under her influence.

Resting upon the principles here presented, and appreciation of their adaptation to the wants of this portion of the West, the Trustees of this Institution confidently commend their plans to the generous and liberal countenance and support of parents and lovers of science in this part of the country.

E. NORRIS, Sec'y.

Newport, Aug. 17, 1857.

From the Baltimore Patriot, Aug. 18.
Extraordinary Surgical Case—A Dirk Traveling Fourteen Years through a Man's Skull.

We met with the most interesting case this morning which has occurred in our experience for a long time. We were introduced to a gentleman who gave us a practical exemplification of the wonderful. Fourteen or fifteen years ago he states that he was passing down Baltimore street, late at night, during a heavy snow storm, when he met, near Frederick street, three men and a woman. He gave them the way, but being violently insulted by one of them, he upbraided them somewhat sharply, when they attacked him. Being a powerful man, standing about six feet in his shoes, he soon laid two of them *hors du combat*, and chased the other to the opposite side of the street, where he felled him to the ground and where, leaning over him, he received a blow in the left temple, which staggered as well as bewildered him for a few minutes. Upon recovering himself his assailants had fled, and feeling the blood flowing pretty freely from the wound, proceeded to a physician, who soon found that he had been stabbed, the instrument entering about half way between the eye and ear, and breaking off short, leaving a considerable length of blade in his head. All efforts to extract it proved futile.

Strange to say, he felt very little pain or inconvenience from his condition. The wound soon healed, and he attended to his regular avocations as if nothing had happened. Three years after the wound again opening, he consulted a surgeon, who, feeling the ragged edge of the blade, made several efforts to draw it out, and after considerable labor, drew from the wound a portion of the base of the broken dirk, which measured within a fraction of two inches in length! This part of it gave an idea of the amount remaining, which was supposed to be a piece of about the same size taken away. For eleven years longer did it continue in this condition, when, about, two weeks since, after suffering a great degree of pain on the right side of his nose near the corner of his eye, on the opposite side to where he received the wound, and a considerable swelling appearing, he went to Professor Smith, who, upon examining the diseased part, found the point of the blade protruding! It had actually traversed through the bones of the head, and, after fourteen years made its appearance in the above locality. Such is its position, plain to the eye and wonderful to be believed, excepting by an eye witness. Dr. Smith, we understand, proposes in a short time to operate for its expulsion. We have often heard of pins and needles being swallowed, and in after years making their appearance in different parts of the body, but that the blade of a dirk, between three and four inches in length, should thus travel and through bone at that, forms an interesting subject or surgeon as well as for the common mind.

REPUBLIC OF LIBERIA.—The London Gazette of the 24th ultimo, contains the official announcement of the appointment, and approval by the proper English authority, of Mr. Gerard Ralston as Consul General for the Republic of Liberia. Mr. R. is a Philadelphian, but for many years a resident of London, where he has allowed no favorable opening to pass unimproved in efforts to serve the rising negro state on the coast of Africa. If the American Government or people would aid this young nation with vigor, and devote the means requisite to develop the plans of the Colonization Society, it would speedily become of great utility in effectually crushing out the slave trade in the African waters, and in introducing civilization and christianity into that mighty continent.

NEW ADVERTISEMENTS.

ap22e253 WILLIAM J. WHALING, Agent.

THE DAILY SENTINEL.

DELHI—ITS FORTIFICATIONS.—A military plan of Delhi and its cantonments has at last been compiled by Captain Lawrence, from the unpublished plans of the East India Company. Hence we see that Delhi is not quite so weakly fortified as was at first asserted, nor quite so strongly as is now pretended. It possesses a citadel, to be taken by escalade or by regular approaches. The walls, being more than seven miles in extent, are built of solid masonry, but of no great hight. The ditch is narrow and not very deep, and the flanking works do not properly enfilade the curtain. Martello towers exist at intervals. They are semi-circular in form, and loopholed for musketry. Spiral staircases lead from the top of the walls down through the towers to chambers, on a level with the ditch, and these are loopholed for infantry fire, which may prove very annoying to an escalading party crossing the ditch. The bastions defending the curtains are also furnished with banquettes for riflemen, but these may be kept down by shelling. When the insurrection broke out, the arsenal in the interior of the city contained 500,000 cartridges, two complete siege trains, a large number of field guns and 10,000 muskets. The powder-magazine had been long since removed, at the desire of the inhabitants, from the city to the cantonments outside Delhi, and contained not less than 10,000 barrels. The commanding heights occupied by Gen. Barnard on the 8th of June are situated in a north-easterly direction from Delhi, where the cantonments outside the walls were also established.

From the description, resting on authentic plans, it will be understood that the stronghold of the revolt must have succumbed before a single *coup de main*, if the British force now before Delhi had been there on the 26th of May, and could have been there if supplied with sufficient carriage.

AN IRISHMAN'S PARODY ON MARCY.—A good story is told of an Irish usher who served Mr. Webster during his incumbency of the State Department at Washington, and who was retained in the same berth by Mr. Marcy, on the inauguration of the Pierce administration. One day several gentlemen called at the private room of the Secretary and inquired for Mr. Marcy.—The usher said he had just gone out, but would be in presently. After waiting some time to no purpose, the gentlemen grew impatient and sent the usher in search of the illustrious fugitive.—But he returned after making diligent search, saying that he couldn't find him; and exclaiming, in most amusing parody of a well known line from a popular hymn book:

"That *Marcy* I to others show,
That *Marcy* show to me."

The visitors laughed very heartily at the clever impromptu, and waited till it pleased Mr. Marcy to show *himself*.

AHABATH ACHIM INSTITUTE.
THE WANT HAS LONG BEEN FELT
in this city of an establishment for the instruction of the youth of both sexes, in not only the most indispensable branches of education, but in those higher and varied attainments which constitute the course of instruction pursued almost exclusively in the higher schools or colleges, such as the classical, oriental, and modern languages, the sciences, &c.
With a view to supply this deficiency, the Board of Directors of the above society have been induced to establish an educational institute, which yields itself through a complete course of an accomplished literary and scientific instruction, from the very earliest rudiments taught children of very tender age, to those various branches taught pupils in institutes, properly called "of learning," such as the Hebrew, Greek and Latin, the German, French, Spanish, Italian, Portuguese and other languages, &c. Instruction will be communicated through the medium of the English and German languages.
The Directors have already engaged teachers of great experience and acknowledged abilities.
They have opened spacious and well-ventilated school-rooms, and the school will be opened on the 1st of September next.
Parents and guardians, who are desirous of sending their children or wards (of either sex) to this institution, will please apply to Mr. H. Otterbourg, the President, 171 East Water Street, or the Rev. Dr. Bash, Secretary, 141 East Water Street, or the Rev. Dr. Bash, Secretary, 141 East Water Street, and Fifth Streets, who will be glad at any time to give every requisite information.

A Very Rare Chance.
ANY PERSON wishing to embark in a safe cash and wholesale trade already established in the city, and doing a profitable business, will learn of an opportunity which seldom offers by applying to Garrett Barry, or address me "B," through the Post Office. The party desiring to dispose of his interest in the concern is about becoming interested in a large house in the East, which makes it necessary for him to change his residence. As the chance is a very rare one, application must be made soon in order to secure it. aug24d1w

SPLENDID CHANCE FOR INVESTMENT.
FOR SALE.—About the best water power in the State, unfailing and improved as follows:—Turning Shop, Furniture Manufactory, first-rate machinery for planing, sawing, and 1¼ acres land; with a story house, 20x32 feet. A good dry kiln and a dwelling house, most pleasantly situated on Bark River, in the prosperous manufacturing village of Rome, in Jefferson County, Wis. The establishment has good patronage, and is environed by the best timber in the State. This unsurpassed water power, machinery, &c., the proprietor desires will be sold cheap and on easy terms, or exchange for a severe chronic lung complaint to retire in consequence of a severe chronic disease. For particulars enquire at the New York Millinery Store, 99 Spring Street, Milwaukee, or at the Exchange Hotel, Rome, Wis. aug15-e294d1m

OGDEN & WALL,
CITY LAND OFFICE.

City Land Office,
Judge Smith's Addition, Fifth Ward.
WE ARE NOW prepared and ready to sell lots in said addition at private sale. We sell at our public sale on the 19th, about 50 lots; most of them will be improved immediately. We repeat again that there is no part of the city so beautiful and so safe to invest your money and on such easy terms. We will sell at the usual terms, ten per cent down, ten per cent in thirty days, the balance in four eight years with annual payments. Any one may wish to select any lots, we will go with them and show them the lots around. What a chance this is for parents to secure lots to leave their children.
OGDEN & WALL.
aug22

CITY LAND OFFICE.
Great Chance for a Grand Speculation.
SEVENTY-TWO acres of land, all at one mile from present city limits, mile from Mr. Week's Addition, half a mile from Rev. Mr. Ivelevick's. One aforesaid land to beautifully situated, high and dry, well timbered and a good piece of the city. The same must be sold for cash. Therefore, a grand chance for some one or parties to make from ten to twenty thousand dollars by platting the same or part of land according to law, and if description of said property we will give, and we will with pleasure give any one a ride who desires to see it. OGDEN & WALL,
aug22 Michigan st., opposite Newhall House.

VALUABLE property in exchange for La Crosse Stock or Bonds.
The confidence felt by the friends of this road in its ultimate responsibility and solvency is evidenced by the fact that some of the most valuable property in the flourishing city of Watertown is left with us to be exchanged for stock and bonds of the La Crosse Company, at high rates.
For particulars early application must be made at the City Land Office. OGDEN & WALL
aug18

A. TENNY & CO., Auctioneers.
jy1

WELD & BALDWIN,
LAND OFFICE,
NO. 18 WISCONSIN STREET.

TO HOTEL-KEEPERS AND HOUSEHOLDERS.
FURNITURE FOR SALE.
WE have for sale about $3,000 worth of superior furniture, which was all made to order, and has only been in use about six weeks, and not a large portion of it has yet been used at all. It consists of parlor and dining and chamber cloths, wool and ingrain and cherry and cottage bedsteads, superior hair and sea-grass mattresses, parlor dining and chamber tables, fine ingrain and oil cloth carpets, silver plated ware and table furniture, blankets, comforters, numerous other articles which we shall be happy to show, but cannot enumerate.
These articles we offer at private sale and at auction prices.
WELD & BALDWIN,
aug18 18 Wisconsin st.

Only Eight Lots Left.
THE demand has been so great that we now have to announce that we have but eight of our First Ward lots left for sale. They are equally location to any which we have sold. If any are hesitating, they had better call soon.
Remember the terms, five cent sales on a hundred down, and three dollars on a hundred monthly thereafter, without interest.

CHAS. QUENTIN & CO.
Lands Within City Limits.
WE offer for sale the lots 14, 15 and 16, in Doubleday's subdivision of N. E. ¼ section 25, town 31, Second Ward, containing about 17 acres and fronting on the Watertown Plank Road, which will be straightened and widened into a 100 feet Avenue. This place is very conveniently shaped to be laid out into city lots, forming nearly a square.
aug26 CHAS. QUENTIN & CO.

Business Property in the 3d ward for Sale
LOT 5, block 35, on Main street, fronting east.
Lot 7, 8, 9, on Chicago street, with alley along side.
North ½ of lot 9, block 87, 25 feet on East Water st.
aug26 CHAS. QUENTIN & CO.

Dwelling Lots in the First Ward.
WE HAVE caused the West half of Block 130, 1st Ward, to be graded on a level, gently rising from Jefferson Street. Streets and sidewalks are finished, gutters paved, and the lots prepared for immediate occupation. We now offer the same at prices which, considering its beautiful location and short distance from the center of business, must be called very low. Terms easy.
aug26 CHARLES QUENTIN & CO.

Business Lots in the Third Ward.
HAVING recently disposed of Lot 16, in Block 40, 3d Ward, we now offer Lot 8, in the same Block, also fronting on Main street, at a small advance, if sold soon.
Further, the Lots in Block 45, and 8, Block 39, on Jefferson Street, at such prices and terms as will make it a first rate investment.

LESSONS IN
Foreign Languages.
MR. AND MRS. L. S. H. DE CRETY, Foreign languages in Milwaukee, have the honor to inform the public that they will form classes in the French, Italian and Spanish Languages on the 1st of September next. The courses of instruction will be according to the age and intelligence of the pupils, and the classes kept entirely separate, their house being arranged with that view.
Gentlemen and ladies who begin to speak either of these languages, can receive lessons in Reading and Conversation. Mr. De Crety furnishing books of the best French authors. Those too wishing to learn vocal music in either of those languages, will find a competent music teacher in the establishment.
The hours of instruction will be from 9 to 11 o'clock A. M., and from 2 to 5 P. M. And in the evening from half past 7 to 9 o'clock for conversation.
Mr. DE CRETY will also give lessons in French, Spanish, and Italian, at his office, to gentlemen only, from 7 to 10 o'clock in the evening, as also lessons in Fencing, the use of the Sword, and all military exercises. Persons of delicate constitution and feeble temperament, as also those confined to their offices and engaged in sedentary pursuits, will derive from these exercises, improvement in their health, and the erect carriage, elasticity and an agreeable recreation.
Mr. De Crety will also form similar courses of exercises, from 10 to 15 years old, at his house, or office, as parents may prefer. There and mothers who desire to see their children strong, active and robust, can judge for themselves, after a few weeks trial, as to the effect of these different exercises upon their health.
The continued patronage of the public is respectfully solicited.
To MERCHANTS.—Mr. DE CRETY will take charge of French correspondence at the principal cities of France and will procure all Price Currents that they may want.

COPARTNERSHIP!
LOOMIS & HOES,
HAVING associated with them in general Copartnership, Mr. WELL PRATSON, of Oneida, N. Y., Manufacturer of
JEWELRY
—AND—
SILVER WARE,
UNDER THE NAME,
MATSON, LOOMIS & HOES,
STATE that our past success prompts to still greater exertion in the perfecting of the
LARGEST AND CHEAPEST
Wholesale, Retail and Manufacturing
JEWELRY STORE IN ALL THE WEST!
As one of our firm is engaged in manufacturing many of our goods, we are therefore prepared to push double shifts, to meet the increasing demand for goods in the western country. Dealers will find it to their advantage to make their purchases of us, as we shall sell at eastern prices. Our great effort has and will be, to offer reliable goods. We shall also keep such goods as may best suit the market at our various customers in trade.
To our city patrons and friends, who have so liberally sustained us, we return our sincere thanks, hoping always to so deal by you as to merit a continuance of your kind favors. We respectfully invite you to an examination of our new goods, which we are now and will be receiving and receiving. Our limited space will not permit of a numeration of them any further, rich and beautiful goods making up our assortment. The following named have appreciated the artistic skill and cunning work of the metal by observation.
Editorial men and others requiring correct time will always find the stock of WATCHES IN MARKET for that purpose, as we intend to sell the best watches that can be procured. Every one shall be dealt by honorably, and no goods misrepresented. The best and most complete stock of Watch Tools, Materials, Glass, &c., in the west.
The most competent workman to repair fine Watches to be found.
All orders will meet prompt attention.
Weekly Observations taken with an Astronomical Transit, for the correct regulation of the Rail Road and City Time—the only one in the city. We can give the time to a second, it being the only way that time can be determined accurately.
Call and see for the place.
NEWELL NATSON. L. C. LOOMIS. L. H. HOES.
